the game stops being able to be played when u get ur shop 1 hour or so in cause of Xeno non stop An atrocity to say the least. Everything in the game is bad; the aesthetic, the controls, the gunplay, the map design, and the ui were all terrible. The only honestly positive thing I can say about the game is at the end of the round it tells you who did the worst just as an extra kick in the balls to new players.. modern loli warfare basically. Absolutely beautiful game. Runs without a hitch. Loads of fun with a good level of difficulty. 10/10. Cute little puzzle game. Puzzles aren't too hard, game isn't too long.. For a VR game the graphics are pretty good. The enemies shift in and look great, the sounds work well enough, the platform makes sense. The one thing I couldn't get past is that there's no arrow drop. You shoot an arrow and it goes in a strait line into infinity. That's not how a bow and arrow work? If that doesn't bother you the rest of it is fine. I feel like this is one of those basic mechanics that make take me out of the game completely. Recommended with caveats.. Don't get me wrong.

I've had to modify the game files to get this to run properly and couldn't launch it through steam.

The game itself was great. but you really are better off getting GZdoom or another DOOM WAD player

-Not recommended due to the fact that the game files supplied dont work without changing it.. The art is amazing!

Otherworldly and haunting. It reminds me of the experimental games I played a lot when I was younger. Try things out, try to understand, see what you find.. Fun and simple to learn. I started a game with a friend and 2 AI opponents and knew everything I needed to know after one match by just watching the AI.

Watching someone harvest themselves into oblivion is quite entertaining.. they dont have 1 simple thing.... **KEYBOARD AND MOUSE SUPPORT**. 50 Years is one of those casual and fun strategy games without the boring and tedious elements of micro managment and drawn out battles.. DLC is for fans of Vector 36 like me. The forth garage slot is nice far into the game and the new garage is quite beautiful, you see other people working on their skimmer, too. New music fits in with the rest (Love Drum'n'Bass)

Mainly bought it to support the great Dev (one Guy), but it does exactly what it says.
