Ugh... slow movement. Unexciting.. I Purchased this Game while on Sale...\$4.49 figured, lets check it out!

Things I like:

- You can move around via Touch Pad Locomotion
- You get a Gun and it Works!

Things I Dislike:

- You can't Run or Jump
- Once You run out of ammo there is No way to defend yourself...? Game Over...

Overall:

- I had Fun Playing the Game. It isn't the worse. but yet, it isn't the best! But, for under \$5 bucks you should put it to the Test!. Short but fun; loved the boss fight at the end.. Picked it up for 5 bucks. Everything is good but the movement which is way slow and awkward.Lot of potential here if it had the superb movement seen in the serious sam vr game.Get it cheap or dont bother.
